NOTES

1945 Lists appearing in Volume 3 of Track and Field Performances through the years have been expanded and adjusted as follows:

Where known, full birthdate and height/weight data have been added

Indoor marks have been integrated into the main lists for the Jumping events and the Shot Put.

Where relevant, indoor marks have been added at the end of track events in a supplement.

For imperial distances for 1 to 6 Miles, the equivalent [and unofficial] mark for the nearest metric event has been shown in parentheses, with a note to explain how the mark was calculated.

Relay events have been extended to show the top-20 nations in the 4x100 and 4x400

Please note that for 1945 [and 1941-44] lists to 100th place have not necessarily been used as the measuring stick. The deprivations of the War Years, which included the death of a large number of top quality athletes, as well the loss of athletic careers for many more, meant that the standards in world athletics were severely affected. The quality of performance at the 100th level simply does not bear comparison with the pre-war years, and so the lists average out at the level of 75 in Olympic events, with some events below 50 in depth.
